14. Please describe any specific aspects of the course and/or teaching practices that your instructor used that particularly helped you to engage with the material, learn the material, and/or develop your own critical perspectives on the material.

What helped me engage with the material was the inherent lack of bias in the case studies he showed us. Whatever type of analysis he displayed was based off the data not his own sentiment which was very professional and a necessity for a class like this.

15. Please describe any specific aspects of the course and/or teaching practices that your instructor used that were less helpful for your learning. Optionally you may offer constructive suggestions that might improve their effectiveness.

I think that towards the end of the quarter, it got harder to follow along because everything built on previous material so if you got lost or behind it was hard to catch up.

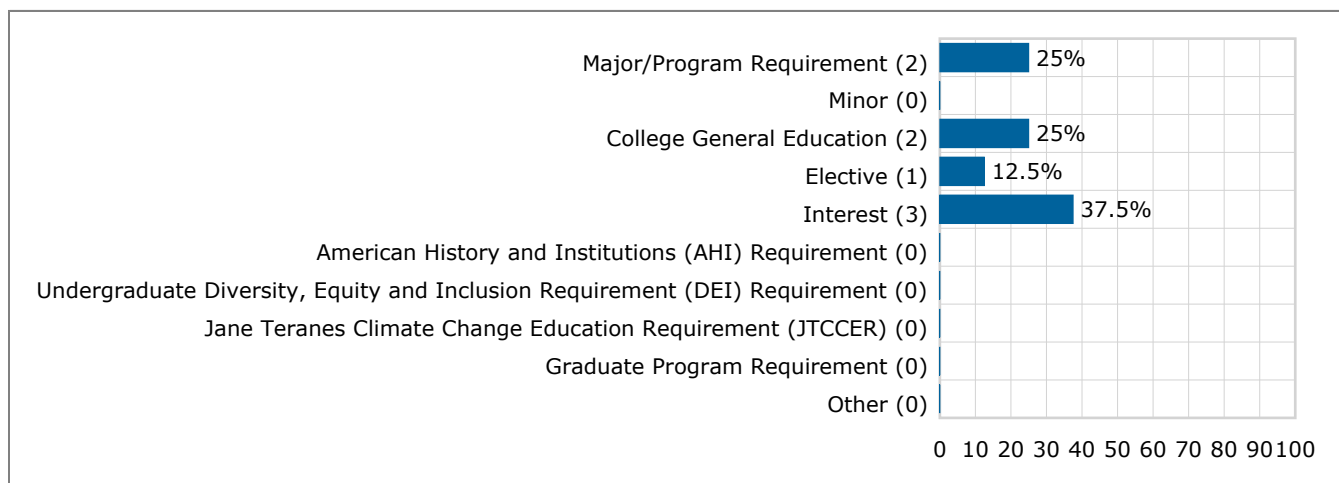

N/A. Best teacher I had at a UC college so far.

16. Please describe any specific aspects of the course and/or teaching practices that your instructor used that created or interfered with a welcoming learning environment that valued and supported students from all backgrounds and identities.
